

- 1 Når du dividerer, så skriver du tælleren (det, der skal deles) i toppen og nævneren (dem, der skal dele det) i bunden. Forestil dig at tallet i toppen angiver det antal frugter, der er i en skål, og tallet i bunden angiver hvor mange, der skal dele frugterne.

Brug dine tabeller for at finde svaret.

tæller (det, vi har)

$$\frac{15}{5} = 3$$

nævner (dem, der skal dele)

$$\frac{40}{4} = \underline{\quad}$$

$$\frac{36}{3} = \underline{\quad}$$

$$\frac{24}{2} = \underline{\quad}$$

$$\frac{44}{2} = \underline{\quad}$$

$$\frac{44}{4} = \underline{\quad}$$

$$\frac{40}{8} = \underline{\quad}$$

$$\frac{32}{8} = \underline{\quad}$$

$$\frac{50}{10} = \underline{\quad}$$

$$\frac{50}{5} = \underline{\quad}$$

$$\frac{30}{10} = \underline{\quad}$$

$$\frac{39}{3} = \underline{\quad}$$

$$\frac{20}{2} = \underline{\quad}$$

$$\frac{20}{10} = \underline{\quad}$$

$$\frac{20}{4} = \underline{\quad}$$

$$\frac{48}{4} = \underline{\quad}$$

$$\frac{48}{8} = \underline{\quad}$$

$$\frac{26}{2} = \underline{\quad}$$

$$\frac{36}{9} = \underline{\quad}$$

$$\frac{21}{7} = \underline{\quad}$$

$$\frac{35}{7} = \underline{\quad}$$

$$\frac{35}{5} = \underline{\quad}$$

$$\frac{42}{2} = \underline{\quad}$$

$$\frac{42}{7} = \underline{\quad}$$
